

Classic news of the 1. C.A.R.-Teams Ferlach

edition November 2017

# Self-praise stinks ...

**T**herefore we prefer that the experts of Austria's largest classic car magazine, the AUSTRO CLASSIC and participants of the FIZZERS-Karawanken-Classic 2017 report about the Classic with

Attached you will get the article of the AUSTRO CLASSIC. - Be sure to read it!

Here is a short excerpt from the numerous emails we received from pilots of the FIZZERS-Karawanken-Classic 2017 after the event:

... I wanted to congratulate you on the successful Karawanken Classic 2017. A great and well organized rally where we had a lot of fun!  
T.K.

... As I already heard from other participants again your rally was a great success. I cordially congratulate.  
R.K.

Many thanks for the wonderful Karawanken rally and the perfect organization performed by your team. Super routes, great scenery, excellent catering, everything was great !!! Congratulation and greetings to you and your entire team.  
A.W.

Finally - this event was a great show again  
A.K.

Again the Karawanken Classic 2017 was a fabulous experience. On arrival at Pyramidenkogel I as surrounded by many GTI-pilots. I also enjoyed the start in Pörtschach ...  
Music and dinner in the castle Leontain was top.  
H.F.

Once again you managed to organize a great and successful event for classic automobiles without any problems. The final evenings each day were great. More than 100 participating teams from Austria, Hungary, Poland, Germany, Italy, Croatia, Switzerland and others ... were enthusiastic about this classic and our country. Thanks once more!!!!  
J.H.

I want like to congratulate once again on your successful event. We enjoyed welcoming so many participants with their vintage cars in Carinthia. ...  
Your mayor

## Never change a winning team!

In 2018 you can expect Carinthian charm at the Karawanken-Classic once more. This event was nominated by the participants „the classic with heart“, but also - thanks to the cooperation with FIZZERS - „the sweetest Classic in Austria“.

What is common for Fizzers-candies and vintage cars?  
It's simple: young and old love and both are classic for many decades. An old brand and old cars - that fits perfectly together.  
Soon after the war the VW Beetle began to crawl and finally there were the first sweets after years of hard starvation - and some owners of classic cars will remember the Fizzers rolls with their refreshing, effervescent taste.

The cooperation with FIZZERS, which exists since two years, is a very fruitful:

- More than 100 participating teams have made the FIZZERS-Karawanken-Classic as Carinthia's biggest classic car event.
- Participants from 13 different nations provide an international flair to the „FIZZERS-KC“.
- As a FIVA-B event, the FIZZERS-Karawanken-Classic meets international standards.

You can get more information, reports, videos and photos about the FIZZERS-Karawanken-Classic on

[www.carteam-ferlach.at](http://www.carteam-ferlach.at)

## Again in 2018: The Wörthersee attracts!

As in recent years, again the Wörthersee will be one of the highlights of the FIZZERS- Karawanken-Classic in 2018. - The atmosphere and mood at the lake during this vintage car rally is an experience that should not missed by you.

Combine a few nice holydays at the lake with your participation in the FIZZERS- Karawanken-Classic!

## In 2018 new „surprises“ and challenges are waiting for the pilots

**P**rais and recognition has been gained in 2017 not only by the participants but also from Austria's leading old-timer magazine **AUSTRO-CLASSIC**: „Conclusion: perfectly organized rally, great routes, clear roadbook, friendly and competent officials ... Classic with heart is demonstrated!“.

Again in 2018, we want to guide the participants of the FIZZERS-Karawanken-Classic to new and scenic routes and check them with new and innovative tests. - But without let them miss the already well-known Carinthian charm of our officials and the gastronomic highlights of the region.

Thanks to the excellent cooperation with the Fachhochschule (university) Klagenfurt new possibilities of timekeeping have been developed that allow new special stages.

**The Fachhochschule Klagenfurt makes it possible:  
New exams provide variety**

Therefore again you will find them, the innovative challenges for which the Karawanken Classic is well known, e.g.: A parallel slalom for oldies - which was organized in Austria for first time; of course, it was not speed but regularity which was important.

Likewise for the first time regularity with electric cars has been organized for the top placed participants using KO-evaluation.

Of course, now you want to know what we are planning for the FIZZERS-Karawanken-Classic 2018?

We apologize that we do not want to reveal that today! - Give us the chance to surprise you!

**For the first time we will have 2 overall winners at the FIZZERS-Karawanken-Classic: one for pre-war vehicles and one for vehicles of classes E to H**

Of course the FIZZERS-Karawanken-Classic will not be a sightseeing trip. Rather, we want to offer the participating teams the opportunity to explore the holiday region of Carinthia on beautiful routes, mostly on small, not often used roads, but at the same time we want to avoid any boring by offering a variety of exciting tests.

Both - experienced „Karawanken Bears“ and newcomers should spend some exciting days on new roads in Carinthia.

**Interested ?  
Have a look at our homepage.**

**[www.carteam-ferlach.at](http://www.carteam-ferlach.at)**

### Bonus for participants of the „Karawanken-Classic Free-Driving“

**O**nly vehicles up to the date of construction 31.12.1945 are admitted to the „Karawanken Classic Free Driving“. Pilots participate in an own class within the FIZZERS-Karawanken-Classic.

Neither a route nor control points or stage times are given by the organizer for these pre-war vehicles.

But „Free-driver“ will get a list of the opening times for special stages / timing tests and presentation points / towns (in 2017 approx. 15); by visiting such presentation points and tests within the given (about 2 1/2 hours) the teams will get bonus points.

The teams select places and special tests they want to visit by themselves and also choose the route they want to go there by themselves .

You select interesting places which you like most and stop in between whenever you want ... and you earn bonus points at the same time.

As a special „incentive“ for the participants of the „FIZZERS-Karawanken-Classic-Free-Driving“ there will be a

**reduction of entry fee of approx 30 % compared to the usual entry fee of 590,- EUR !**
